This is in response to the renewed petition under 37 CFR 1.47(a), filed December 10, 2002.

The renewed petition under 37 CFR 1.47(a) is **GRANTED**.

The instant renewed petition was filed in response to a decision dismissing the first petition under 37 CFR 1.47(a). The decision was mailed on October 10, 2002, and allowed a two month period for filing a renewed petition. The instant renewed petition was then filed on December 10, 2002, with a statement from the inventor Dalton, the non-signing inventor, indicating that, although he was presented with a complete copy of the application papers, inventor Dalton did not sign the declaration.

Petitioner has established that, despite being presented with a complete copy of the application papers, inventor Dalton has refused to join in the prosecution of the application. As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This application will be forwarded to the Office of Initial Patent Examination for further processing.

There is no indication that the person signing the instant petition was ever given a power of attorney or authorization of agent to prosecute the above-identified application. If the person signing the instant petition desires to receive future correspondence regarding this application, the appropriate power of attorney or authorization of agent must be submitted. While a courtesy copy of this decision is being mailed to the person signing the instant petition, all future correspondence will be directed to the address of currently of record until such time as appropriate instructions are received to the contrary.
